The marketing automation market place is a very hot and growing market place – making LeadLife a very fast-paced and dynamic place to work. With a foundation of customers already in place, a large and growing market, LeadLife is looking to grow significantly in 2011.

Overview: LeadLife looking for seasoned .Net professional in Greenfield project – new development with strong domain expertise with little constraints (some integration with existing components). The individual needs to be a well rounded professional to join an entrepreneurial team using the latest tools, technologies and best practices in an agile environment.

Requirements:

- » 10 years+ development experience
- » 5 years+ .Net C# experience
- » 2 years+ , javascript, jQuery, jQuery UI
- » Experience developing enterprise-level commercial products
- » SaaS (e.g. multi-tenant applications)
- » Strong skills in a model driven approach
- » Use Cases or User Stories
- » Domain Analysis
- » Component Models
- » Deployment Models
- » Strong relational database skills
- » Strong OOAD – need to be able to identify and implement relevant OO patterns to meet design objectives
- » Understanding of current relevant architecture patterns: MVC, REST...
- » Team player – solo acts, ego feeders and drama seekers need not apply

Desired Skills:

- » Good communications skills –team works side-by-side with business group
- » Knowledgeable in near real-time systems, event driven, high volume transactions
- » Graphics, user interaction and user Interface design
- » ASP.Net MVC
- » HTML5
- » ORM – general experience and familiarity
